PROFESSIONAL SUMMARY

Passionate Frontend Developer with a strong foundation in Data Structures and Algorithms (C/C++). Proficient in modern web technologies like React.js, Tailwind CSS, and Framer Motion. Committed to building high-performance, responsive web applications and continuously learning to grow in the tech industry.

PROJECTS

Personal Portfolio Website   2025
Tech Stack: HTML, Tailwind CSS, React.js, Framer Motion

- Designed and developed a fully responsive personal portfolio showcasing individual projects, resume, and contact information.
- Integrated Framer Motion to create smooth, engaging UI animations, enhancing user experience and interactivity.
- Emphasized clean, modular code using React best practices to ensure scalability and ease of maintenance.

Weather App & QR Code Generator   2025
Tech Stack: HTML, Tailwind CSS, React.js

- Built two React applications leveraging external APIs to display real-time weather data and generate customizable QR codes.
- Strengthened core proficiency in asynchronous JavaScript, API integration, and dynamic React state management through hands-on implementation.
- Prioritized user experience by creating intuitive, mobile-first interfaces and handling error cases gracefully.

CricPlay & Assembly Game   2025
Tech Stack: HTML, Tailwind CSS, React.js

- Developed two interactive web games utilizing React Hooks, custom components, and app routing for seamless navigation and logic structure.
- Implemented robust error handling and user feedback for edge cases, increasing usability and engagement.

SKILLS DEVELOPMENT

- Acquired advanced frontend development skills (React.js, Tailwind CSS, Framer Motion, JavaScript) through dedicated self-learning on platforms like YouTube.
- Completed multiple personal web projects applying practical skills in modern UI design, state management, and collaborative version control with Git & GitHub.
